

Dear Friends & Care Givers,

My hubby came into ER at 10:30 PM or so on 6/2/16 and Dr. Goehring so patiently & thoroughly administered her expertise to him. He was septic, white count 24,000, pneumonia, dehydrated, & VERY sick & disoriented. Once determined the above, the rest of you ably took over his care. Arne was so impressed w/ your sensitivity & honest caring for both of us. On 6/6 (1:30 Sun AM) he asked for a Cath. He's passed over 150 + kidney stones in our 53 yrs of marriage. That afternoon the CT scan revealed a 12 mm kidney stone in the urethra. He came home with a catheter – 15 long hrs. Update: He is completely free of all infections & is waiting for a Cystoscopy to eliminate the stone. You SAVED His life! God intervened w/ your help! Thank You!

To all who so selflessly cared for us...Thank you – everyone!

Connie, Myrna, Amber, Carley, June, Bonnie, Mary, Mary Lou, Jamie, Kathryn, Candida Goehring CNP, Dr. Reule-Ducheneaux, Dr. Hagge, and all I forgot! You were the Best!

Lovingly, Arne & BJ Jacobson  
Belle Vista AR

In a phone conversation with Arne and BJ, he told me that “If I ever have to be sick, I want to be sick in your hospital. Your facility was so professional in a ticklish situation.” They were also so impressed that all offered prayers for this family. They were convinced that God sent them to Mobridge to be taken care of by *our* staff.
