Independent Auditor's Report

The Board of Trustees
Mobridge Regional Hospital
Mobridge, South Dakota

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mobridge Regional Hospital, which comprise the balance sheets as of September 30, 2024 and 2023, and the related statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of Mobridge Regional Hospital as of September 30, 2024 and 2023, and the results of its operations, changes in net assets, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mobridge Regional Hospital and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Mobridge Regional Hospital's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mobridge Regional Hospital's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mobridge Regional Hospital's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated February 6, 2025, on our consideration of Mobridge Regional Hospital's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Mobridge Regional Hospital's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mobridge Regional Hospital's internal control over financial reporting and compliance.

Note 1 - Organization and Significant Accounting Policies

Organization

Mobridge Regional Hospital (Hospital) operates a 25-bed critical access hospital, a 16-bed assisted living center, an 8-bed senior housing center in Mobridge, South Dakota, and medical clinics located in Mobridge, Timber Lake, McLaughlin, and Selby, South Dakota.

Income Taxes

The Hospital is a South Dakota nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code Section 501(c)(3). The Hospital is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Hospital is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purpose. The Hospital has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990T) with the IRS.

The Hospital believes that it has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The Hospital would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

Patient and Resident Receivables

Patient and resident receivables are uncollateralized customer and third-party payor obligations. Payments of patient and resident receivables are allocated to the specific claims identified on the remittance advice or, if unspecified, are applied to the earliest unpaid claim. The Hospital does not charge interest on past due patient and resident receivable balances.

Patient and resident accounts receivable are stated net of any contractual and implicit price concessions and then further reduced by an allowance for credit losses. The Hospital has not adjusted the promised amount of consideration from patients and residents and third-party payors for the effects of a significant financial component due to the Hospital's expectation that the period between the time the service is provided to a patient or resident and the time that the patient or resident or third-party payor pays for that service will be one year or less. However, the Hospital does, in certain instances, enter into payment arrangements with patients and residents that allow payments in excess of one year. For those cases, the financing component is not deemed to be significant to the contract.

The Hospital also records credit losses for patient, resident, and other accounts receivable based on the current expected credit losses. Credit losses are recorded after consideration of any implicit or explicit price concessions. Management believes that the historical loss information it has compiled is a reasonable basis on which to determine expected credit losses at September 30, 2024 and 2023 because the composition of the patient, resident, and other receivables at those dates are consistent with that used in developing the historical credit loss percentages. Additionally, the Hospital has determined that current and reasonable forecasted economic conditions are consistent with the economic conditions included in the historical information. There were no material credit losses and related allowance at September 30, 2024 and 2023.

The Hospital's patient and other receivable balances at October 1, 2022 were \$3,372,294 and \$711,164.

Notes Receivable

The Hospital issues notes to physicians and employees as part of its recruitment process. Notes are repayable over a minimum of a two-year period to a maximum of a three-year period. The notes are issued with forgiveness provisions over the life of the note to encourage retention. Based on historical analysis, it is anticipated that the balance of the notes will be forgiven. At September 30, 2024 and 2023, notes receivable from physicians and employees were \$553,903 and \$357,898. The physician and employee notes receivable are included in other receivables on the balance sheets.

The Hospital evaluates the collectability and forgiveness eligibility of the loan balances based upon historical experience and the specific circumstances of individual notes, with an allowance for credit losses being provided if necessary. Notes receivable are reported net of any allowances for credit losses. Allowance for credit losses for notes receivable was \$-0- as of September 30, 2024 and 2023.

Supplies

Supplies are stated at lower of cost or net realizable value on a first-in, first-out basis.

Assets Limited as to Use

Assets limited as to use include assets held by trustees under indenture agreements and assets restricted under loan agreements. Assets limited as to use that are available for obligations classified as current liabilities are reported in current assets.

Interest in Net Assets of Foundation

Mobridge Regional Health Care Foundation (Foundation), an affiliate of the Hospital, solicits contributions and holds funds on behalf of the Hospital. The Hospital's interest in these funds is recorded as other assets in the accompanying financial statements. Changes in the funds held by the Foundation are recorded as changes in net assets with donor restrictions in the accompanying financial statements.

Investments and Investment Income

Investments with readily determinable market values are stated at fair value. The fair value of all debt and equity securities with readily determinable fair values are based on quotations from national and foreign securities exchanges. All investments are classified as trading securities, therefore investment income or loss (including interest income, dividends, net changes in unrealized gains and losses, and net realized gains and losses) is included in revenues less than expenses unless the income or loss is restricted by donor or law.

Property and Equipment

Property and equipment acquisitions in excess of \$5,000 are capitalized and recorded at cost. Depreciation is provided over the estimated useful life of each depreciable asset and is computed using the straight-line method. The estimated useful lives of property and equipment are as follows:

Land improvements	5 - 30 years
Buildings and improvements	5 - 40 years
Equipment	5 - 25 years

Gifts of long-lived assets such as land, buildings, or equipment are reported as additions to net assets without donor restrictions, and are excluded from revenues (less than) in excess of expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when donated or when acquired long-lived assets are placed in service.

Impairment of Long-Lived Assets

The Hospital considers whether indicators of impairment are present and performs the necessary analysis to determine if the carrying values of assets are appropriate. No impairment was identified for the years ended September 30, 2024 and 2023.

Debt Issuance Costs

Debt issuance costs are amortized to interest expense over the period the related obligation is outstanding using the straight-line method, which is a reasonable estimate of the effective interest method. Debt issuance costs are included within the long-term debt on the balance sheets. Amortization of debt issuance costs is included in interest expense in the accompanying financial statements.

Net Assets with Donor Restrictions

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Donor-Restricted Gifts

The Hospital reports contributions restricted by donors as increases in net assets without donor restrictions if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of changes in net assets as net assets released from restrictions.

Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met.

Deferred Compensation

The Hospital has a non-qualified deferred compensation plan that permits eligible employees to defer a portion of their compensation in accordance with the applicable provisions of the Internal Revenue Code. Deferred amounts are not available to employees until a distribution event occurs, as defined in the plan document. The assets are held in the name of the Hospital until paid or made available to the plan participant. The related assets are reported in other noncurrent assets, and the corresponding liability is recorded in other noncurrent liabilities.

Patient and Resident Service Revenue

Patient and resident service revenue is reported at the amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing patient and resident care. These amounts are due from patients or residents, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Hospital bills the patients or residents and third-party payors several days after the services are performed and/or the patient or resident is discharged from the facilities. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Hospital. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Hospital believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patient care in the hospital and clinic settings and residents receiving skilled nursing services. The Hospital measures the performance obligation associated with inpatient acute services from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. The Hospital measures the performance obligation for outpatient and medical clinic services over the patient encounter, which is generally short in duration. The Hospital measures the performance obligation associated with residents receiving skilled nursing services from the beginning of the performance period, generally admission or the beginning of the month, to the sooner of completion of services to that resident, discharge or the end of the month. Revenue for performance obligations satisfied at a point in time is recognized when goods or services are provided, and the Hospital does not believe it is required to provide additional goods or services to the patient or resident.

Because all of its performance obligations relate to contracts with a duration of less than one year, the Hospital has elected to not disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services or skilled nursing services to residents at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged or for residents, the sooner of completion of services, discharge or the end of the month, which generally occurs within days or weeks of the end of the reporting period.

The Hospital determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients and residents in accordance with the Hospital's policy, and/or implicit price concessions provided to uninsured patients and residents. The Hospital determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policies and historical experience applied to a portfolio of accounts. The Hospital determines its estimate of implicit price concessions based on its historical collection experience with the respective class of patients and residents.

Settlements with third-party payors for retroactive adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Hospital's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews and investigations.

The Hospital's estimated third-party payor settlement payable balance at October 1, 2022 was \$360,100.

Consistent with the Hospital's mission, care is provided to patients and residents regardless of their ability to pay. Therefore, the Hospital has determined it has provided implicit price concessions to uninsured patients and residents and patients and residents with other uninsured balances (for example, co-pays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and residents and the amounts the Hospital expects to collect based on its collection history with those patients and residents.

To fulfill its mission of community service, the Hospital provides care to patients and residents who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Since the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient and resident service revenue. The estimated cost of providing these services was \$84,000 and \$130,000 for the years ended September 30, 2024 and 2023, calculated by multiplying the ratio of cost to gross charges for the Hospital by the gross uncompensated charges associated with providing charity care to its patients or residents.

Other Operating Revenues

The Hospital participates in the 340B Drug Pricing Program (340B Program) enabling the Hospital to receive discounted prices from drug manufacturers on outpatient pharmaceutical purchases and enter into certain contracts with unrelated pharmacies who provide certain prescription drugs to Hospital patients who receive rural health clinic and outpatient services. This program is overseen by the Health Resources and Services Administration (HRSA) and Office of Pharmacy Affairs (OPA). HRSA conducts routine audits of these programs at health care organizations and monitors program compliance. Laws and regulations governing the 340B Program are complex and subject to interpretation and changes. During the years ended September 30, 2024 and 2023, the Hospital recognized \$1,889,283 and \$1,881,191 of other revenue from operations related to its 340B Program contract with an unrelated pharmacy. Other revenue also includes income from rentals, cafeteria and meals sales, operating grants and other operating transactions.

Other revenue is recognized at an amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing goods and services. The amounts recognized reflect consideration due from customers, third-party payors, and others. Other operating revenues are generally recognized at a point in time. Primary categories of other revenue include income from other retail revenue, cafeteria revenue, certain facility rent and lease revenue, operating grants and other operating transactions.

Performance Indicator

Revenues less than expenses is the performance indicator and excludes unrealized gains and losses on investments other than trading securities, transfers of assets to and from related parties for other than goods and services, and contributions of long-lived assets, including assets acquired using contributions which were restricted by donors.

Advertising Costs

Costs incurred for producing and distributing advertising are expensed as incurred. The Hospital incurred \$130,035 and \$89,760 for advertising costs for the years ended September 30, 2024 and 2023.

Functional Allocation of Expenses

The financial statements report categories that are attributed to program service activities or supporting activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. The functional expenses report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, such as depreciation and amortization, interest, and other occupancy costs, and certain employee benefit costs are allocated to a function based on a square-footage, usage, salaries, units-of-service basis while the remainder of expenses are allocated on the basis of estimates of time and effort. Note 13 presents the natural classification detail of expenses by function.

Adoption of Accounting Standards Codification Topic 326

As of October 1, 2023, the Hospital adopted Accounting Standards Update (ASU) No. 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (ASU 2016-13), which replaces the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss (CECL) methodology. The CECL model is applicable to the measurement of credit losses on financial assets measured at amortized cost, including trade and loan receivables, and held to maturity debt securities. CECL requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. The update also requires that credit losses on available-for-sale debt securities be presented as an allowance rather than a write-down of the security. This standard provides financial statement users with more decision useful information about the expected losses on financial instruments. The Hospital adopted ASU 2016-13 using the modified retrospective review method for all financial assets measured at amortized cost. Results for reporting periods beginning after October 1, 2023, are presented under Topic 326 while prior period amounts continue to be reported in accordance with previously applicable GAAP. The adoption of the new standard did not have a material impact on the Health Center's Consolidated Statements of Operations or Statements of Cash Flows.

Note 2 - Patient and Resident Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare – Hospital: The Hospital is licensed as a Critical Access Hospital (CAH). The Hospital is reimbursed for most acute care services under a cost reimbursement methodology with final settlement determined after submission of annual cost reports by the Hospital and are subject to audits thereof by the Medicare intermediary. The Hospital's Medicare cost reports have been audited by the Medicare Administrative Contractor through the year ended September 30, 2022.

Medicare – Clinics: The Mobridge Medical Clinic (Mobridge, SD), West Dakota Health Center (Timber Lake, SD), Selby Medical Clinic (Selby, SD) and West River Health Clinic (McLaughlin, SD) are designated as Provider-Based Rural Health Clinics (RHC) by the Medicare program. As a result, clinical services rendered to Medicare program beneficiaries are reimbursed under a cost reimbursement methodology.

Medicaid: Inpatient acute care services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Clinical and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a prospectively determined reimbursement methodology based on historical costs. There are no retroactive settlements resulting from the Medicaid program.

Medicaid – Assisted Living: The Hospital is reimbursed for Medicaid assisted living resident services at established billing rates as prescribed by the South Dakota Department of Social Services regulations. These rates are subject to retroactive adjustment by field audit.

Wellmark Blue Cross and Blue Shield: Inpatient services rendered to Blue Cross subscribers are paid at prospectively determined rates per discharge. Outpatient services are reimbursed at outpatient payment fee screens or at charges less a prospectively determined discount. The prospectively determined discount is not subject to retroactive adjustment.

Other: The Hospital has also entered into payment agreements with certain commercial and managed care insurance carriers and other organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Concentration of revenues by major payor accounted for the following amounts of the Hospital's patient and resident service revenues for the years ended September 30, 2024 and 2023:

	2024	2023
Medicare	\$ 10,396,884	\$ 9,378,674
Medicaid	4,923,193	3,227,703
Commercial insurance	8,191,444	7,227,104
Other third-party payors, patients, and residents	3,249,728	4,266,141
	<u>\$ 26,761,249</u>	<u>\$ 24,099,622</u>

On November 8, 2022, South Dakota voters approved expansion of Medicaid coverage to adults 19 through 64 years of age effective July 1, 2023. Medicaid expansion, under the provisions of the Affordable Care Act, extended eligibility to low-income adults with incomes up to 138% of the federal poverty level. This expansion aims to increase access to healthcare for South Dakotans, particularly in rural areas, by providing coverage to individuals who previously did not qualify for Medicaid. As a result, the state anticipates reduced uncompensated care costs for healthcare providers. The impact of this expansion on the state's budget and healthcare infrastructure is being monitored and may affect future financial and operational performance in the coming years.

Laws and regulations governing the Medicare, Medicaid, and other programs are extremely complex and subject to interpretation. The Hospital has potential settlements with third-party payors for retroactive adjustments that are considered variable consideration and included in the determination of the estimated transaction price for providing patient care. As a result, there is an ongoing level of uncertainty relative to the estimated liability for prior period cost reports. There is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The patient and resident service revenue for the years ended September 30, 2024 and 2023, increased approximately \$21,000 and \$146,000, respectively, due to removal of allowances previously estimated that are no longer necessary as a result of final settlements and years that are no longer likely subject to audits, reviews, and investigations and changes in estimated settlements.

Generally, patients and certain residents who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Hospital also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. The Hospital estimates the transaction price for patients and residents with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions.

The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts and implicit price concessions based on historical collection experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient and resident service revenue in the period of the change. The ability to estimate the collectability of uninsured and other self-pay patients is contingent on the patient's ability or willingness to pay for the services provided. Subsequent changes that are determined to be the result of an adverse change in the patient's and resident's ability to pay are recorded as provision for credit losses. The provision for credit losses for the years ended September 30, 2024 and 2023 was not significant.

The nature, amount, timing and uncertainty of revenue and cash flows are affected by several factors that the Health Center considers in its recognition of revenue. Following are some of the factors considered:

- Payors (for example, Medicare, Medicaid, managed care or other insurance, patient and resident) have different reimbursement/payment methodologies
- Length of the patient's and resident's service/episode of care
- Geography of the service location
- Health Center's line of businesses that provided the service (for example, hospital, physician services, etc.)

For the years ended September 30, 2024 and 2023, the Hospital recognized revenue of \$26,761,249 and \$24,099,622 from services and goods provided over time.

Note 3 - Liquidity and Availability

The Hospital continually determines the necessary amount of funds to hold in cash and cash equivalents to meet operational needs. Cash in excess of operating requirements or funding needed for capital improvements is generally invested. Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, are comprised the following as of September 30, 2024 and 2023:

	2024	2023
Cash and cash equivalents	\$ 7,209,514	\$ 5,254,983
Receivables		
Patient and resident receivables	3,765,645	3,645,480
Estimated third-party payor settlements	683,606	1,072,000
Other	384,153	306,994
	<u>\$ 12,042,918</u>	<u>\$ 10,279,457</u>

Note 4 - Investments and Investment Income**Assets Limited as to Use**

The composition of assets limited as to use at September 30, 2024 and 2023, is shown in the following table.

	2024	2023
Under bond indenture agreement - held by trustee		
Bond interest fund - Cash equivalents	\$ 355,220	\$ 880,457
Debt reserve fund - Cash	173,220	153,264
	<u>\$ 528,440</u>	<u>\$ 1,033,721</u>

Deferred Compensation Plan

Other assets also include deferred compensation plan assets which are invested in mutual funds and totaled \$1,050,499 and \$867,915 as of September 30, 2024 and 2023.

Investment Income

Investment income and gains and losses on assets limited as to use, cash equivalents, and other investments consists of the following for the years ended September 30, 2024 and 2023:

	2024	2023
Interest income	<u>\$ 265,919</u>	<u>\$ 178,161</u>

Note 5 - Fair Value Measurements

The Hospital reports certain assets and liabilities at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to the entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to an assessment of the quality, risk or liquidity profile of the asset or liability.

The estimated cost to complete this project is approximately \$50,123,700, with construction commitments of approximately \$10,570,300 as of September 30, 2024, which will be financed with unadvanced funds from the City of Mobridge Economic Development Revenue Bonds, Series 2021.

Note 7 - Leases

The Hospital has elected the short-term lease exemption for all leases with a term of 12 months or less for both existing and ongoing operating leases such that the Hospital does not recognize the asset and liability for these leases. Lease payments for short-term leases are recognized as expense on a straight-line basis over the term of the lease. Total short-term lease expense for the years ended September 30, 2024 and 2023, for all operating leases was \$77,260 and \$60,158, respectively.

Under the terms of the USDA Rural Development Program mortgage note payable agreement, the Hospital is required to maintain certain restricted deposits. Such deposits are included with assets limited as to use in the financial statements.

The Hospital entered into agreements to borrow \$41,492,000 for purposes of interim financing on the Hospital's master facility building project through the City of Mobridge, Economic Development Revenue Bonds, Series 2021 (the Bonds). The funds are advanced to the Hospital as the construction is completed. As of September 30, 2024, the total amount of the advances outstanding was \$24,689,770. The interim financing matures on November 1, 2024. Subsequent to September 30, 2024, the Bonds were reissued, effectively extending the maturity date of the bonds to May 2026. Once the master facility building project is completed, the interim financing will be replaced with long-term financing through a guaranteed loan with Colliers Mortgage LLC and direct loan with United States Department of Agriculture (USDA). In accordance with the reissuance extending the maturity date and the long-term financing, the bonds are presented as long-term liabilities in the balance sheet.

Under the terms of the revenue refunding bonds loan agreement, the Hospital is required to maintain certain deposits with a trustee. Such deposits are included with assets limited as to use in the financial statements. The loan agreement also places limits on the incurrence of additional borrowings and requires that the Hospital satisfy certain measures of financial performance including a covenant that income available for debt service coverage must equal at least 120 percent of annual debt service requirements on all funded debt. Substantially all of the Hospital's assets at September 30, 2024 and 2023, are pledged as collateral for the debt obligations. As of September 30, 2024, the Hospital had unadvanced loan funds available on long-term loan commitments of approximately \$16,802,000.

The Hospital's debt agreements contain certain restrictive covenants, including the maintenance of specific financial ratios and amounts. Management believes the Hospital is in compliance with all debt covenants as of September 30, 2024 and 2023.

The Hospital's Board of Trustees designates the participants under the Plan and the Plan is a salary reduction agreement only. As of September 30, 2024 and 2023, the Plan had five and six participants and a balance of \$1,050,499 and \$867,915, respectively.

Note 11 - Affiliation Agreement – CHI St. Alexius Health

During 2017, the Hospital signed an affiliation agreement with CHI St. Alexius Health. The affiliation agreement provides that CHI St. Alexius Health will provide management and administrative services. During the year ending September 30, 2024, the agreement was amended to remove management services. The agreement remains in effect in perpetuity but may be cancelled by the Hospital following a 90-day notice.

Note 12 - Concentrations of Credit Risk

The Hospital grants credit without collateral to its patients and residents, most of who are insured under third-party payor agreements. The Hospital's composition of receivables from third-party payors, patients, and residents at September 30, 2024 and 2023, was as follows:

	2024	2023
Medicare	26%	20%

U.S. Public Health Service	16%	27%
Commercial insurance	18%	17%
Self pay and other	13%	15%
	<u>100%</u>	<u>100%</u>

The Hospital maintains its cash, cash equivalents, and restricted cash in various bank deposit accounts which at various times during the year may exceed federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per insured bank, for each account ownership category. At September 30, 2024 and 2023, the Hospital had approximately \$309,000 and \$886,000, respectively, in excess of FDIC-insured limits. The Hospital has not experienced any losses in such accounts. The Hospital believes it is not exposed to any significant credit risk on the bank deposit accounts.

Note 14 - Related Party Transactions

Mobridge Regional Hospital Foundation (Foundation) is organized to solicit contributions and hold funds on behalf of the Hospital. Funds are distributed to the hospital as determined by the Foundation's Board of Trustees. The Hospital's interest in the net assets of the foundation is reported as a noncurrent asset in the accompanying balance sheets. The amount recorded in the balance sheet is equal to the net assets held by the Foundation that are for the benefit of the Hospital.

During the years ended September 30, 2024 and 2023, the Foundation donated funds to the Hospital totaling \$529,300 and \$50,000, respectively.

Note 15 - Contingencies**Malpractice Insurance**

The Hospital has malpractice insurance coverage to provide protection for professional liability losses on a claims-made basis subject to a limit of \$1 million per claim and an annual aggregate limit of \$3 million. The Hospital is also insured under an umbrella liability occurrence insurance policy with a limit of \$3 million. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be uninsured.

The Hospital has accrued workers' compensation losses of \$124,369 and \$-0- at September 30, 2024 and 2023. These liabilities are included in current liabilities as other accrued expenses in the accompanying financial statements. As of September 30, 2024 and 2023, receivables of \$124,369 and \$-0- have been recorded for expected insurance recoveries related to the malpractice claims. The receivables are included in current assets as other receivables in the accompanying financial statements.

Litigations, Claims, and Assessments

The Hospital is subject to the usual contingencies in the normal course of operations relating to the performance of its tasks under its various programs. In the opinion of management, the ultimate settlement of any litigation, claims, and disputes in process will not be material to the financial position, operations, or cash flows of the Hospital.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations, specifically those relating to the Medicare and Medicaid programs, can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Federal government activity has increased with respect to investigations and allegations concerning possible violations by health care providers of regulations, which could result in the imposition of significant fines and penalties, as well as significant repayments of previously billed and collected revenues from patient services.

Note 16 - COVID-19 Stimulus Programs**Provider Relief Funds**

As of September 30, 2024, the Hospital has received \$5,370,433 of Coronavirus Aid, Relief, and Economic Security (CARES) Act Provider Relief Funds administered by the Department of Health and Human Services (HHS). The funds are subject to terms and conditions imposed by HHS. Among the terms and conditions is a provision that payments will only be used to prevent, prepare for, and respond to coronavirus and shall reimburse the recipient only for healthcare-related expenses or lost revenues that are attributable to coronavirus. Recipients may not use the payments to reimburse expenses or losses that have been reimbursed from other sources or that other sources are obligated to reimburse. HHS currently has varying deadlines to incur eligible expenses and lost revenues, which vary based on the date the funds are received. Unexpended funds will be subject to repayment.

These funds are recorded as a refundable advance when received and are recognized as provider relief fund revenues in the accompanying statements of operations as all terms and conditions are considered met. The terms and conditions are subject to interpretation, changes, and future clarification, the most recent of which have been considered through the date the financial statements were available to be issued. In addition, this program may be subject to oversight, monitoring, and audit. Failure by a provider that received a payment from the Provider Relief Fund to comply with any term or condition can subject the provider to recoupment of some or all of the payment. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

As of September 30, 2024 and 2023, the Hospital had a total refundable advance balance related to provider relief funds of \$-0-. During the years ended September 30, 2024 and 2023, the Hospital recognized \$-0- and \$200,664, respectively, as revenue, included as provider relief fund revenue on the statements of operations.

Other Stimulus Grants

The Hospital also received \$59,890 from the South Dakota Department of Health and Human Services. These funds are subject to terms and conditions imposed by the grantor. The Hospital recognized revenue from these funds of \$-0- and \$59,890 for the years ended September 30, 2024 and 2023.

Contract Liability – Medicare Advanced Payments

During September 2020, the Hospital received \$3,904,815 in advanced payments from the Centers for Medicare & Medicaid Services (CMS) in order to increase cash flow for Medicare Part A providers who were impacted by the COVID-19 pandemic. The Hospital paid back the remaining unrecouped advanced payments during the year ended September 30, 2023.

The Hospital's contract liability balance as of October 1, 2022 was \$1,356,846.

Note 17 - Subsequent Event

Subsequent to year-end, the City of Mobridge Economic Development Revenue Bonds, Series 2021 were reissued, effectively extending the maturity dates of the bonds to May 2026 due to an extended construction timeframe. The interest rate on the reissued bonds is 5.12%, due monthly with principal due on May 1, 2026. In accordance with the reissuance extending the maturity date, the bonds are presented as long-term liabilities in the balance sheets.

**Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

The Board of Trustees
Mobridge Regional Hospital
Mobridge, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Mobridge Regional Hospital (Hospital) which comprise the Hospital's balance sheet as of September 30, 2024, and the related statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 6, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Hospital's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control. Accordingly, we do not express an opinion on the effectiveness of the Hospital's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Hospital's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Responses as Finding 2024-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Responses as Finding 2024-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mobridge Regional Hospital's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Mobridge Regional Hospital's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Hospital's response to the findings identified in our audit and described in the accompanying Schedule of Findings and Responses. The Hospital's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Hospital's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Hospital's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Finding No. 2024-001 Preparation of Financial Statements and Financial Statement Adjustments
Material Weakness

Criteria: Proper controls over financial reporting include a system designed to provide for the preparation of the financial statements and accompanying notes to the financial statements in accordance with accounting principles generally accepted in the United States of America that are materially correct and include all required disclosures.

Condition: The Hospital does not have an internal control system designed to provide for the preparation of the full disclosure financial statements in accordance with accounting standards generally accepted in the United States of America. As auditors, we proposed material audit adjustments relating to patient and resident receivables, property and equipment, accounts payable, long-term debt, and patient and resident service revenue, that would not have been identified as a result of the Hospital's existing internal controls, and therefore could have resulted in a material misstatement to the financial statements. We were also requested to draft the financial statements and accompanying notes to the financial statements.

Cause: The Hospital has limited staff to prepare full disclosure financial statements. Management has elected to have the financial statements and footnotes prepared by the external audit firm as part of the audit.

Effect: There is a reasonable possibility that the Hospital would not be able to draft the financial statements and accompanying notes to the financial statements that are correct and in a timely manner without the assistance of the auditors.

Recommendation: While we recognize that this condition is not unusual for an organization with limited staffing, it is important that the Hospital is aware of this condition for financial reporting purposes. Management and the board of directors should continually be aware of the financial accounting and reporting of the Hospital and changes in the accounting and reporting requirements.

Response: The Hospital will review for propriety the year-end adjustments, the draft financial statements and the financial statement footnotes. Due to the Hospital's limited staffing, we will accept the risk associated with financial statement preparation, based on cost and other considerations. The cost of any further controls would outweigh the related benefits.

**Finding No. 2024-002 Segregation of Duties
Significant Deficiency**

Criteria: The functions of executing transactions, recording transactions, and maintaining accountability for the records should be performed by different employees or be maintained under dual control. Areas in which a lack of segregation was noted include the chief financial officer handling multiple accounting functions, including posting transactions to the general ledger, preparing monthly reconciliations, calculation of significant estimates in the financial statements, and posting manual adjusting journal entries.

Condition: The Hospital has a limited number of office personnel performing the record keeping functions of the organization.

Cause: The Hospital has limited staff and cannot justify staffing the number of positions necessary to have proper segregation of duties across all areas.

Effect: Inadequate segregation of duties could adversely affect the Hospital's ability to detect and correct misstatements that would be significant in relation to the financial statements in a timely period by employees in the normal course of performing their assigned functions.

Recommendation: While we recognize that the Hospital's office staff may not be large enough to assure optimal internal controls, it is important that the Hospital is aware of this condition. Under this condition, the Board and management's close supervision and review of accounting information is the best means of preventing and detecting errors and irregularities.

Response: Due to the Hospital's limited staffing, we will accept the risk associated with segregation of duties based on cost and other considerations. The cost of any further controls would outweigh the related benefits.
